I would like to apply for the front-end web developer opening in your company.

I'm a passionate Web developer, looking to improve my front-end skills and learn some new stuff.
What I know: (see Technical Skills section).
What I would like to learn: some JavaScript frameworks like *Angular.js, React.js, Backbone.js, Node.js* and not only these, everything that is related to front-end web development and can come in handy.

Recently, I started a small web project (see link on Experience chapter), also looking to add some more.

If you believe my profile matches your requirements, please don't hesitate to contact me via phone or e-mail for further information.
